

OUR VALUES

Committed
to carers
and caring

We're committed to changing the lives of carers for the better and ensuring that they have a voice that is heard, included and respected.

Carers and caring is at the heart of everything we do.

Able to build
and strengthen
community

We bring people together and actively seek opportunities to learn, share, help and partner with our team, members/supporters, carers and partners.

We are strengthened by our communities.

Respectful and
united in our
differences

We value every individual regardless of their life experience and we speak up and stand up when we see disrespect and discrimination in action.

We ensure all people are heard and included.

Empower curious
and creative
pioneers

We ask questions, respectfully challenge each other, look for ways to try new things and empower our colleagues and supporters to do the same.

To support and benefit carers we need to remain inquisitive and creative.

Responsible for
our actions, we
celebrate success,
learn from the rest

We take responsibility for our actions, sharing our successes and supporting one another through our mistakes and failures.

In success and in failure, we support each other.
