

DO YOU FACILITATE A CARER SUPPORT GROUP?

Carers Victoria invites you to join our
**COMMUNITIES OF PRACTICE FOR
SUPPORT GROUP FACILITATORS**

We work closely with Carer Support Group facilitators and know that you want practical skills and ongoing opportunities to connect with your peers.

We have established a Community of Practice for Carer Support Group facilitators, consisting of three groups across Victoria that will meet five times throughout the year. These sessions will focus on sharing experience, skills and knowledge.

Each session focusses on a specific topic based off feedback received from our participants.

Topics include:

- How to attract new members;
- Ways to get the money you need;
- Building relationships and facilitation skills;
- Evaluation methods;
- Managing conflict.

Participants are encouraged to attend every session to build relationships and connections.

We offer two regular programs for **volunteer/unpaid** carer support group facilitators, one for **METRO** and one for **RURAL** and **REGIONAL VICTORIA**.

We offer one regular program for employed/paid facilitators across Victoria.
