Navigating NDIS & My Aged Care with confidence

For service users, carers and health & community workers

June - July 2025

Providing Tools to help you navigate NDIS/My Aged Care

In our daily work we meet individuals and families with pressing support needs made more urgent as they cope with a life-limiting illness making the prospect of navigating either NDIS or My Aged Services overwhelming.

This timely program of information seminars has been created in direct response to this need and in response to the changes coming to the NDIS and My Aged Care. The program will cater to service users and carers and for Health and community workers to build knowledge and confidence to access the required supports.

Seminars

A program of four hybrid face-to-face and online seminars will take place in June-July providing information to attendees on how to access the supports clients require and are eligible for via My Aged Care and NDIS.

Topics

Important reforms coming into effect in My Aged care including:

- The new Support at Home structure and the
- introduction of a short-term and intensive support Palliative Care Pathway.

NDIS and My Aged Care:

- Eligibility
- Application and assessment process,
- Support and services,
- Intersection of NDIS and My Aged Care.

Support for carers.
